

Intuit QuickBooks Point of Sale

Spend Time on Your Business, Not Your Paperwork

New and Improved Version 8.0

QuickBooks Point of Sale puts your whole retail business at your fingertips - all your sales, all your inventory, all your customer information, all in one place, so you can focus on running your business.

QuickBooks Point of Sale¹ enables you to:

- **Get the information you need to run your business**
See what's selling, what needs restocking and get sales reports for everything you track. Plus see your most important business information in one customizable view.
- **Automatically track inventory as you ring up sales**
Point of Sale automatically adjusts inventory figures every time you make a sale, order, or return which helps you make better spending decisions on inventory.
- **Personalize your customer service**
By tracking your customers' email and shipping addresses, you have what you need to let them know about upcoming sales. View each customer's purchase history as you ring up sales, and suggest additional purchases based on past preferences.
- **Easily accept credit and debit cards²**
It's the only credit and debit card processing service that lets you record and authorize transactions in QuickBooks Point of Sale with a single swipe — no need to re-key data.³
- **Manage up to 20 stores from one location**
Manage information for up to 20 stores from one location. With Point of Sale - Multi-Store, you'll know at a glance how each store - as well as your company as a whole - is doing.

Point of Sale Cashier Screen

Visual Navigator Screen
